Notes:	Notes: They have their name as the main keywords. They also Have a lot of pages indexed by Google. The anchor text in their links is also their main keyword. These guys can be beat with a little work and strategy.	Notes: They don't have a ton of backlinks and on-page is not great at all, however what they having going for them is TON of pages. These guys can be beat with on-page and off-page SEO.	Notes: They have very few backlinks and on-page is not great at all. What they having going for them is they have done just a little more than their competitors and their web is good. These guys can be beat with better on-page and off-page SEO.
